Profile

I am a highly motivated and detail-oriented Software Engineering undergraduate with a strong foundation in programming, software development, and problem-solving. I have hands-on experience in developing applications, working with relational databases, and creating network models using various tools like Python, SQL, Postman, Visual Studio, Wamp Server, Cisco Packet Tracer, Visual Studio code, React-Native, and Figma. Passionate about learning and implementing new technologies, I have participated in numerous academic projects, including mobile app development, computer networking, and communication skills enhancement. Seeking an opportunity to apply my knowledge and further develop my skills in a challenging software engineering role.
